RESUME OBJECTIVE

Dynamic and detail-oriented Laravel Developer with four years of experience in the software industry, specializing in web development. Proven track record in delivering high-quality, scalable web applications for a diverse range of big projects. Skilled in collaborating with cross-functional teams to define, design, and ship new features, with a strong focus on writing clean, efficient, and maintainable code. Proficient in PHP, MySQL, and modern JavaScript frameworks. Committed to leveraging technical expertise to provide innovative solutions that drive business growth and improve user experience.

EXPERIENCE

Carbonic IT Solutions, Islamabad *—Laravel Developer*

November 2022 – Present

- At Carbonic IT Solutions, I served as a Laravel Developer, contributing significantly to the development and enhancement of key products such as Ship6 and Global Shopaholics. My role involved leveraging Laravel's capabilities to develop robust, efficient, and scalable web solutions.
- Actively involved in the development of Ship6 and Global Shopaholics, focusing on creating high-performance, scalable web applications using Laravel and mobile applications using Flutter.

BcmTech, Saudi Arabia *— Laravel Developer (Remote)*

March 2021 – November 2022

- Developing and designing a large interactive product for the hospitals of Saudi Arabia financed by the Ministry of Health.
- Fixed bugs from an existing website and implemented enhancements that significantly improved web functionality and speed

Fiverr, Remotely *- Laravel Developer*

March 2020 - April 2021

- Worked on more than 70 projects of clients some are small scale and some are large scale.
- Completed 90+ orders with 5-star reviews of more than 40 clients.

Savitech Solutions, Karachi – *Junior Software Engineer*

November 2019 - March 2020

- Developing and designing the CRM of a company for the hospital systems presented in Karachi.
- Fixing bugs from the existing product and making it fast and easy to use for the user (staff, administrator).

Verge Systems, Hyderabad - *Junior Software Engineer*

January 2019 - November 2019

- Worked on multiple projects and their products like Smart Pupils and Financially.
- Fixed bugs and improved systems by optimizing the system.
